

Yuli Multi-Enhancing Artificial Vision by Integrating Machine Learning in Retinal Prosthetics

RWTHAACHEN
UNIVERSITY

Prüfung

Invertible encoder:

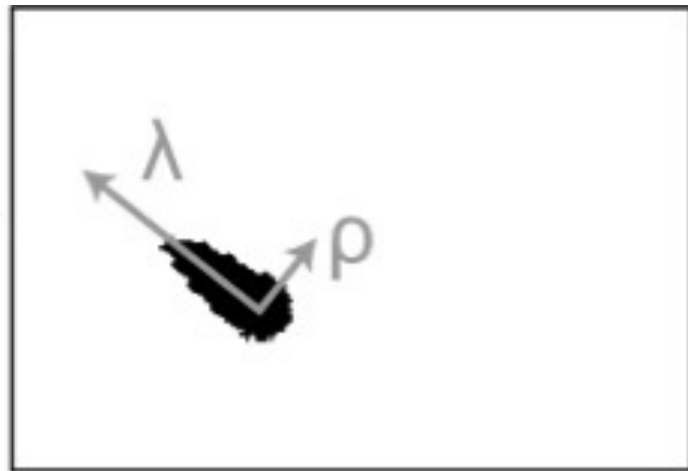

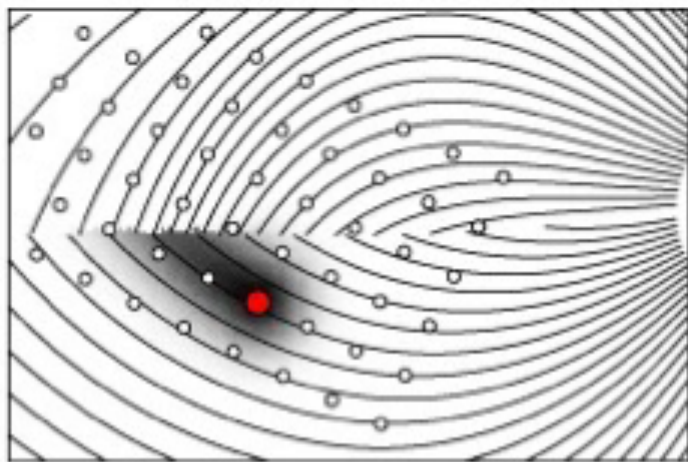

$$g := f^{-1}$$

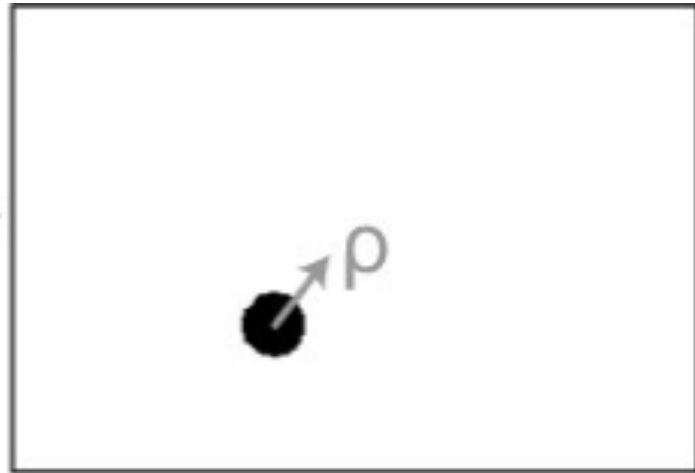

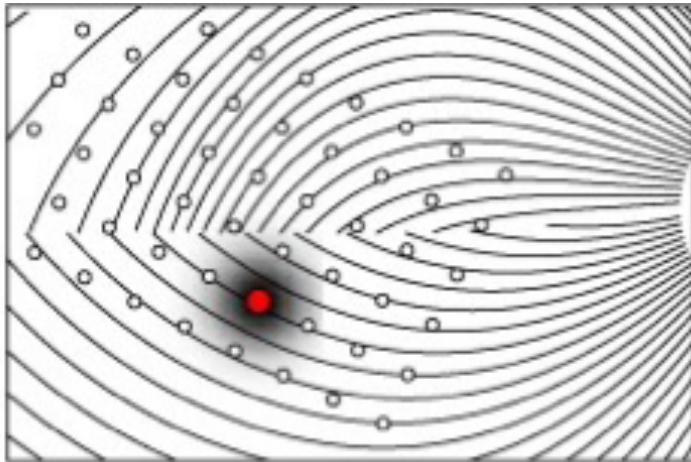

Essentialism

Reverse encoder:

$$g(x) := y \rightarrow s$$

Formalism

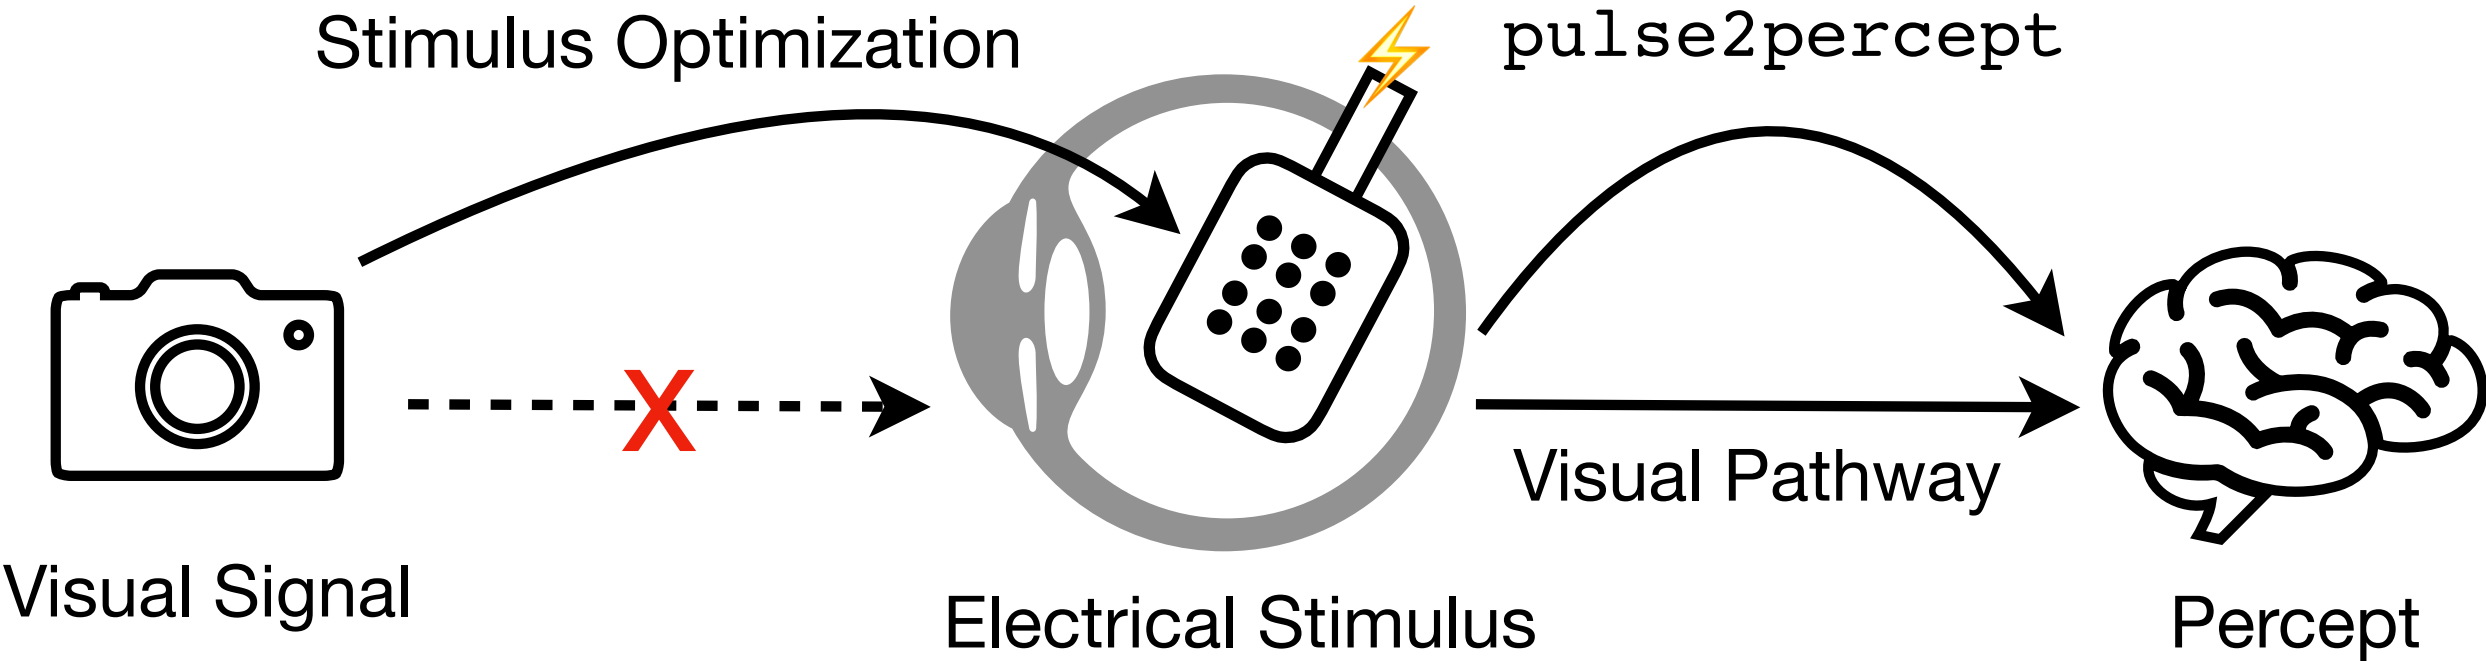

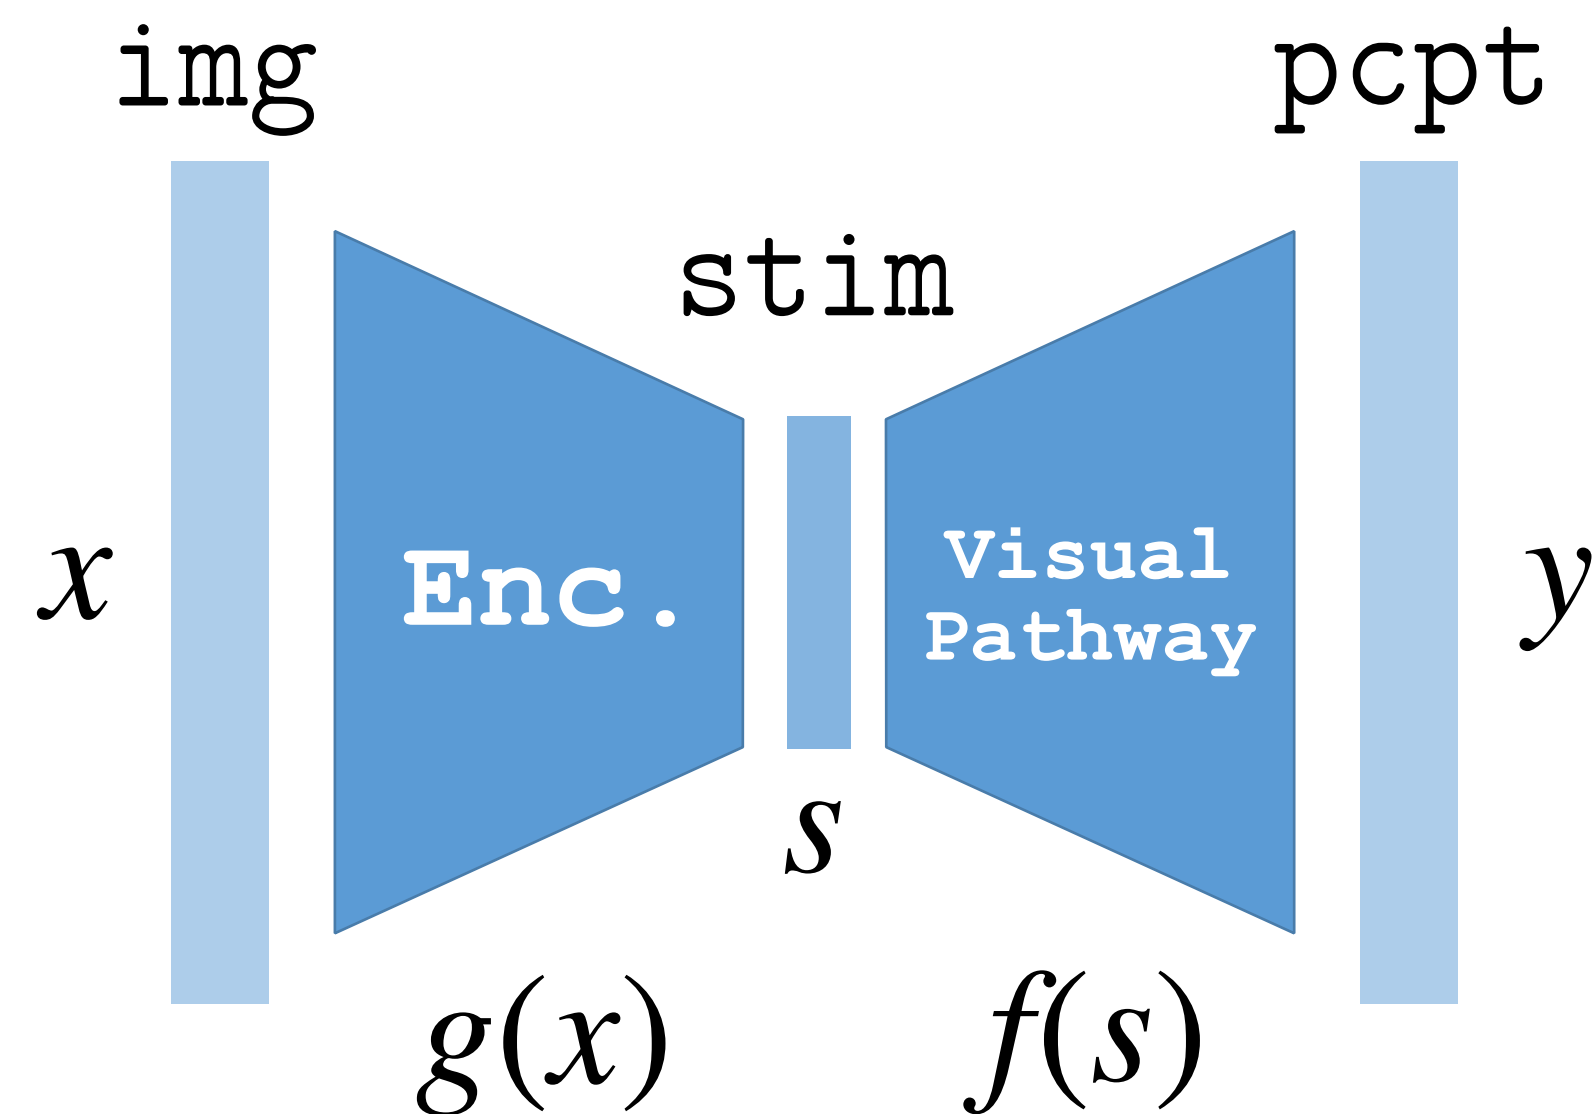

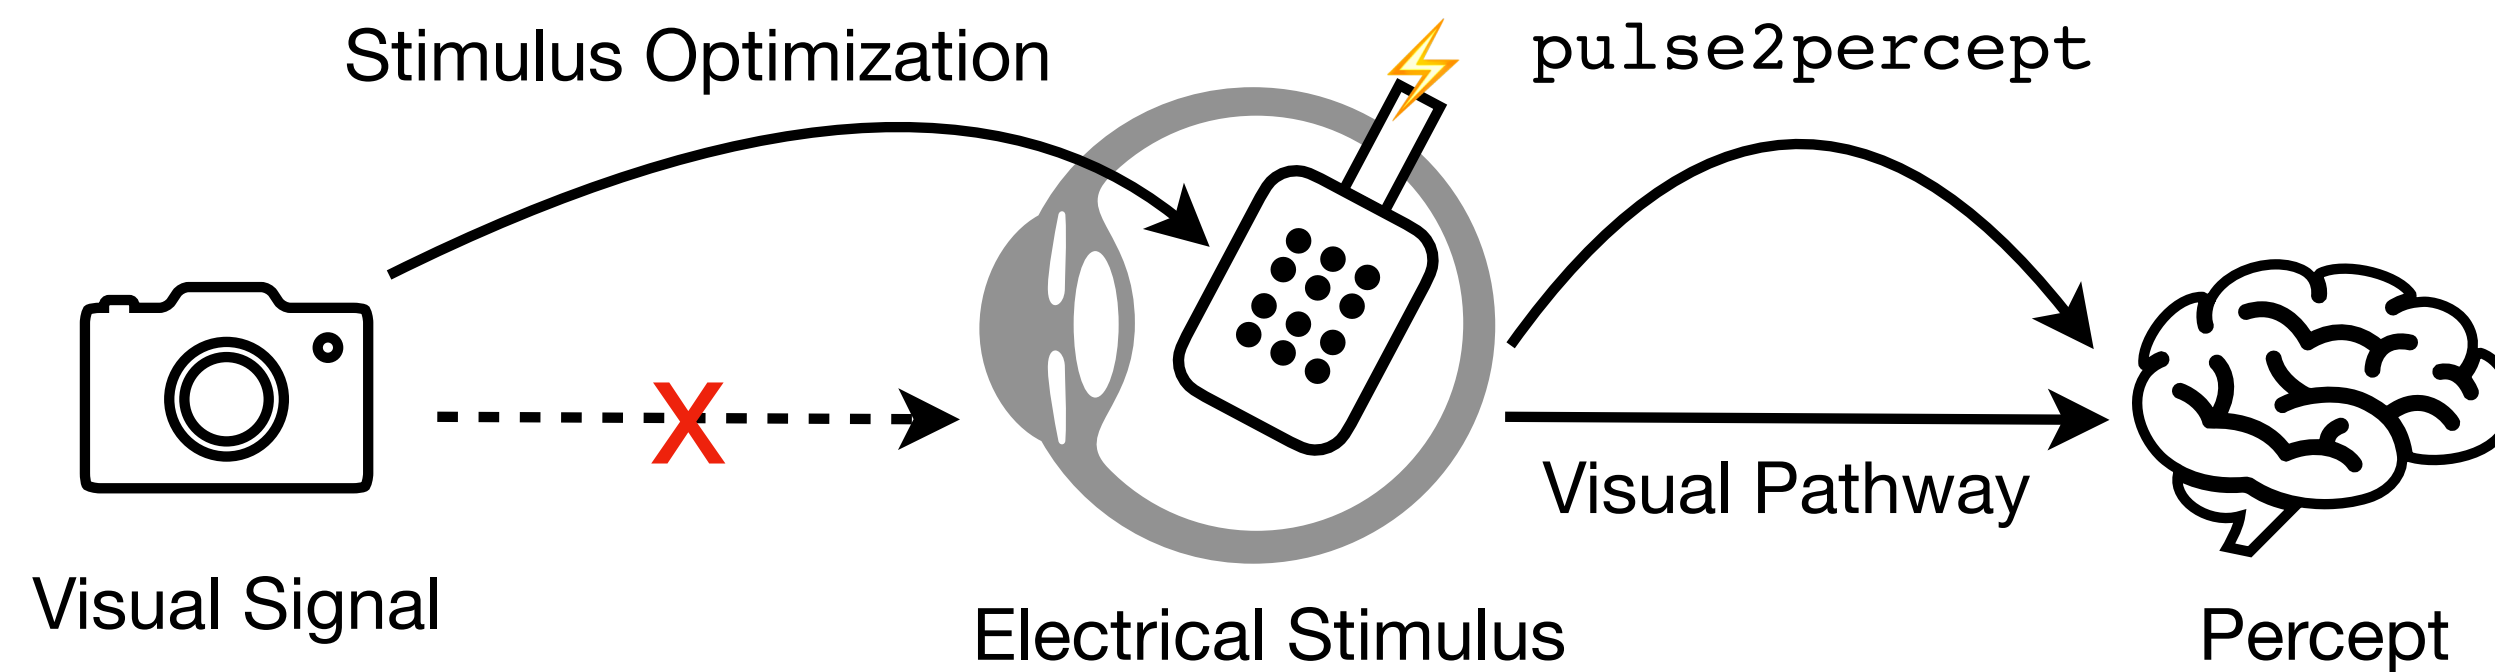

End-to-end encoder:

$$f(g(x)) \simeq x$$

Functionalism

Problem Formulation

Reverse encoder:

$$g(x) := y \rightarrow s$$

Formalism

End-to-end encoder:

$$f(g(x)) \simeq x$$

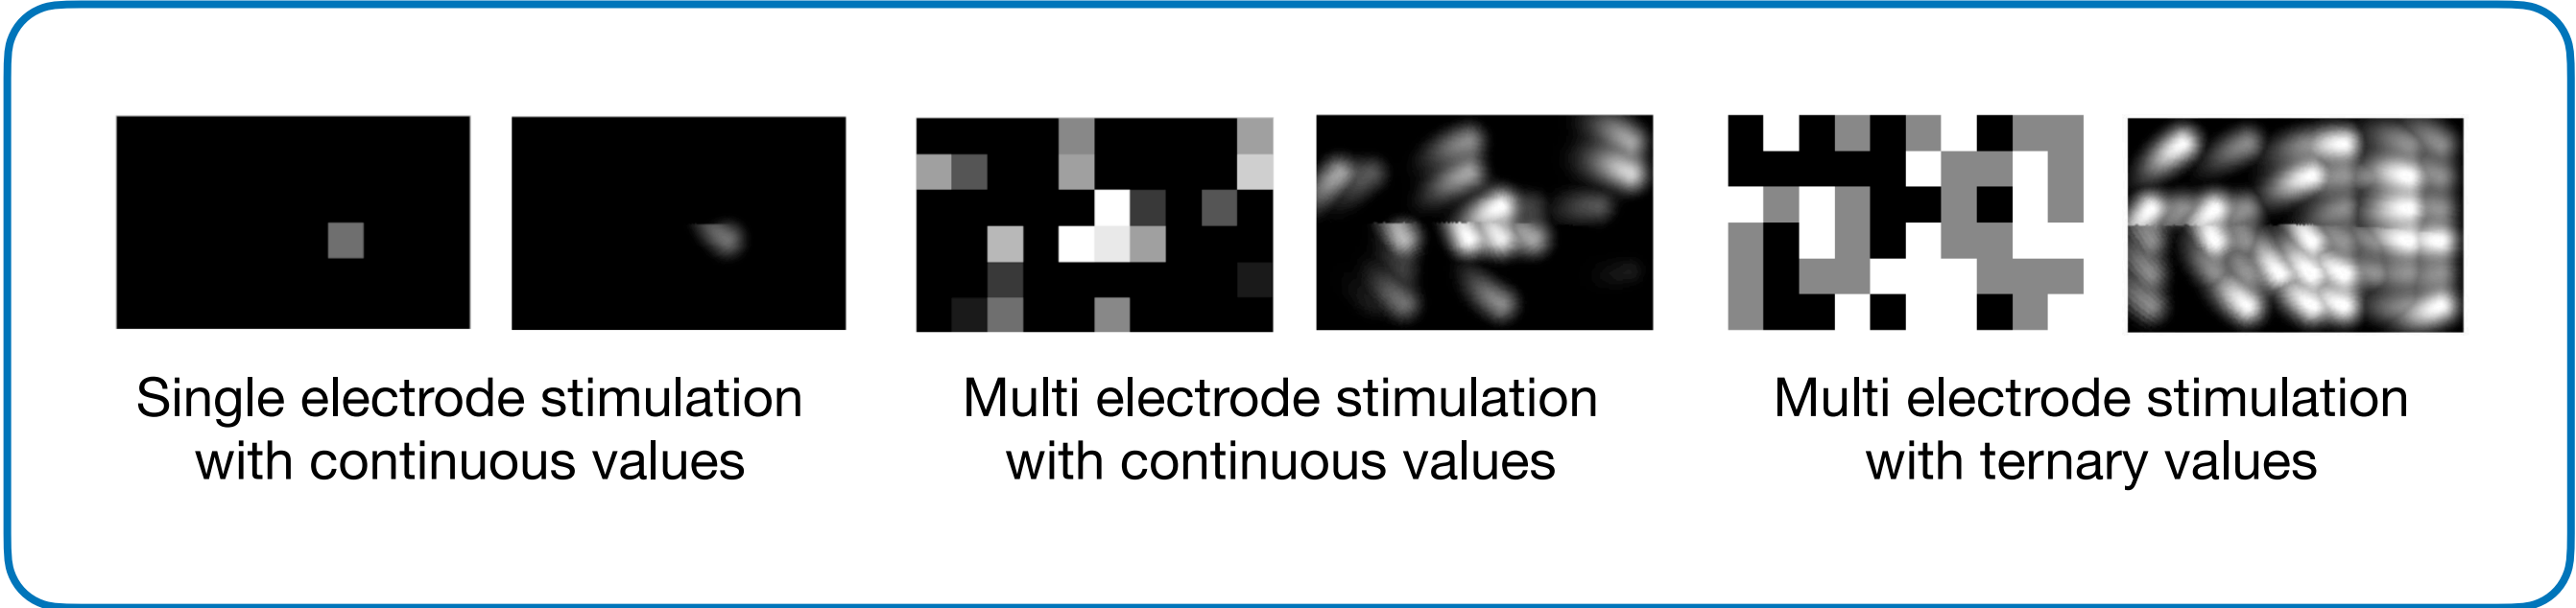

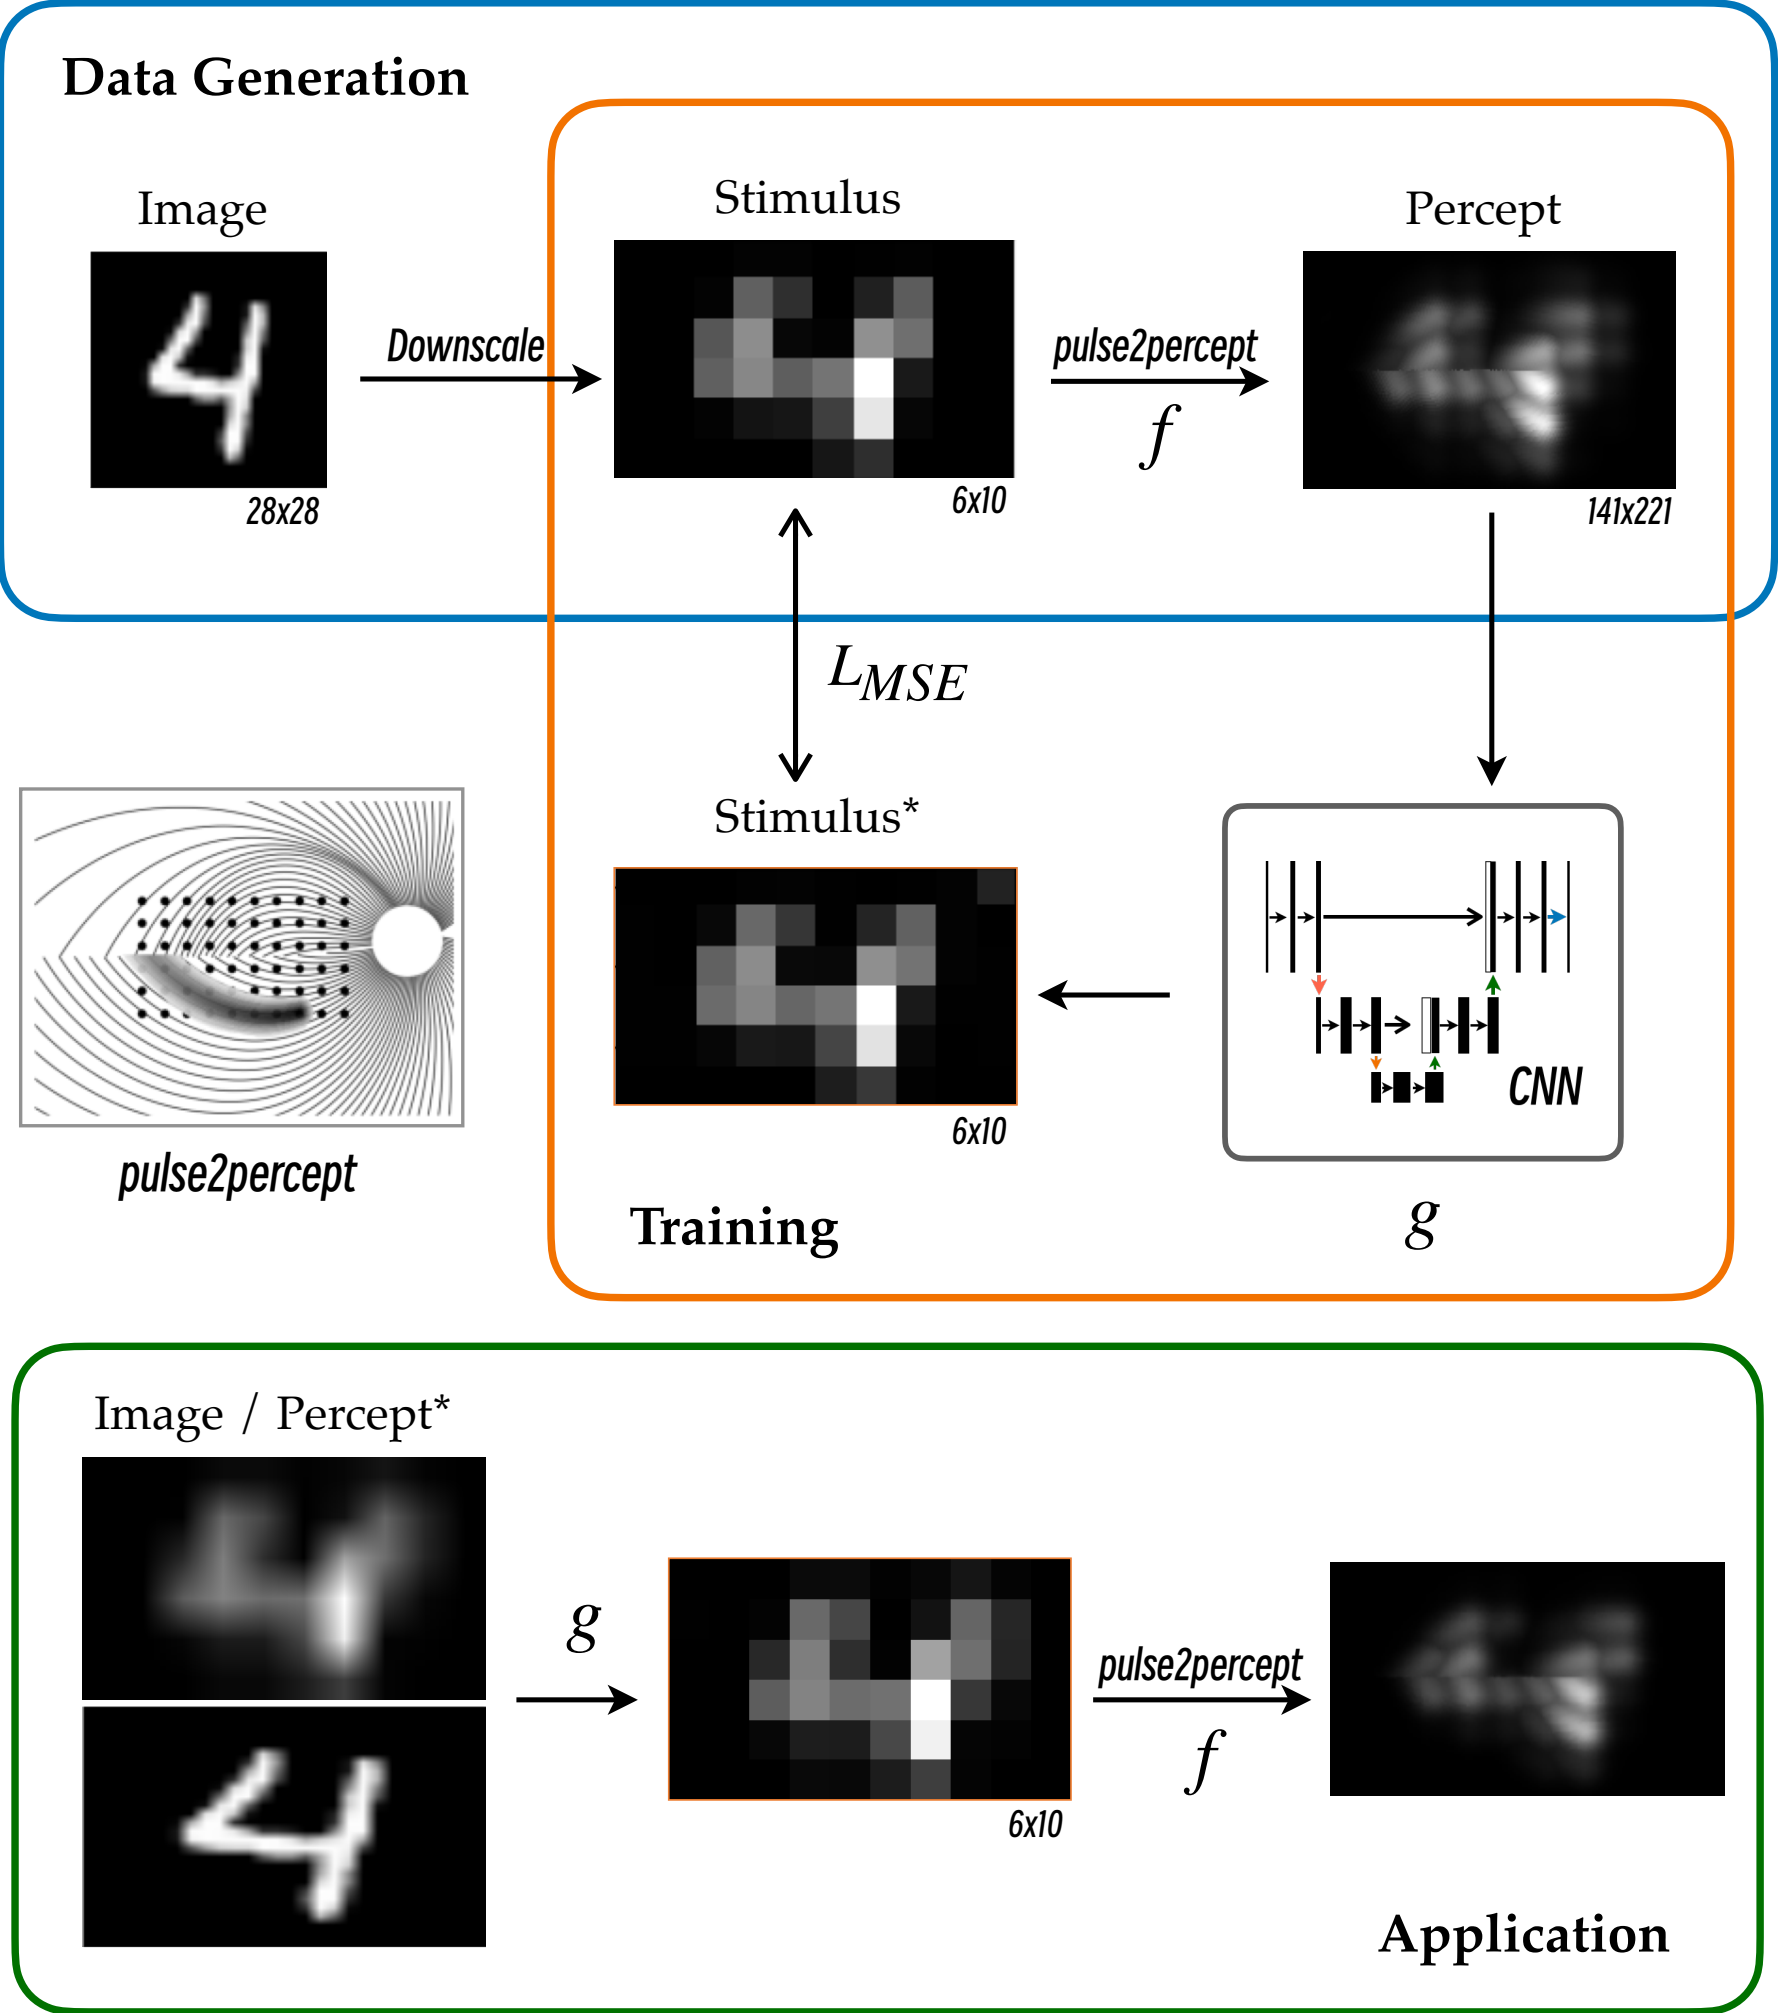

Functionalism

Invertible encoder:

$$g := f^{-1}$$

Essentialism

Reverse Encoding
